

The need for reliable supply chain intelligence has never been greater. Geopolitical unrest is complicating global sourcing. Volatile raw material prices are making long-term agreements more difficult to maintain. And corporate scandals and questionable ethics are making partnering a double-edged sword.

See what the future will hold - click into free supply chain forecasts using the links below. For more specific information, just ask us if we have what you need.

The Supply Chain of 2030

What Capacity Gap?

Boston Logistics Group is providing input to a major study that will chart supply chain trends and freight bottlenecks over the next 30 years.

Creating the On-Demand Network

Boston Logistics Group has quantified the supply chain benefit of transportation infrastructure improvements on companies in six Supply Chain Types (tm).

Consultant Profile: Luis Gondelles

Luis Gondelles, an Associate with Boston Logistics Group, focuses on technology implementation in the supply chain. Prior to joining Boston Logistics Group, he spent three years working in Caracas working for Petroleos de Venezuela, owner of Citgo, and Otepi Consultores, a leading engineering, procurement, and construction consulting firm. Luis holds a Master of Science in Information Systems from Boston University, an MBA from Boston University, and a Bachelors of Science in Materials Engineering from Simon Bolivar University in Venezuela.
